

ALEXANDRIA, VIRGINIA. WEDNESDAY, SEPTEMBER 29.

It is stated that there will probably be a suit at Philadelphia against the Mount Moriah Cemetery Association for refusing to receive for burial the remains of Henry Jones, colored, a well known caterer of that city, who died on Friday last. His wite bought a lot in the cemetery in April last and buried a sister there a month later. The funeral cortege of Jones was stopped on its way to the cemetery Monday by persons purporting to represent the association, alleging that no colored persons should be interred there. The body was tem porarily placed in a receiving vault in Lebanon Cemetery until the matter can be settled.

U. S. Senator Wallace, of Pennsylvania, made a speech at Clearfield, Pa., last night, charging the changed condition of the country to Republican extravagance and mismanagement. He claimed that the country could not resume specie payments in 1879 because no preparation has been made for it. We had paid out \$3.879.000.000 since 1865, and now economy in the administration must open the door to resumption, and the money paid the National Banks on their bonds ought to be saved by exchanging bank currency for goveroment notes. Hard money, he said, was the true money, but it cannot be reached so soon.

By proclamation of the Governor, published in yesterday's Gazette, it is announced that the statue of Stonewall Jackson will be inaugurated in Richmond on Thursday, October 26th. The Governor invites all persons, of any State or section, who love virtue, and honor the memory of Stonewall Jackson to join in such an outpouring of the people as will attest their admiration for his exalted character and appreciation of the sympathy which prompted English friends to present a memorial so gratifying to the whole Southern people.

The adjourned meeting of the "Reformed party" was held in Baltimore last night. The committee appointed at the last meeting reported a list of candidates for the different State and municipal offices. The meeting was addressed by Messrs. J. Morrison Harris, Warfield and Porter, and a letter was read from S. Teackle Wallis. The Suo says: "The mercantile and business element did not predominate, but there were present reformers of all classes."

The whole number of votes cast in the recent constitutional election in New Jersey was 96,-552. There were twenty eight amendments in all, and each received a majority of over 40,000 except the twelfth amendment, which repealed what is known as the "five-county act," and that was carried by 6,734 majority. The Catholie opposition to the school clause did not amount to more than 2,000 votes.

As before stated in the Gazette, ex Governor Wm. Smith, of Fauquier, has consented to be voted for at the primary election in that county for delegates to the General Assembly, but he says in his letter: "While I am much grati fied at this mark of appreciation, I hope I shall be excused for saying to my friends that I shall expect them to take charge of the canvass, as my age and the circumstances will not allow me to take a very active part in it."

The Guibord case, in Montreal, has again got into the courts, the "Fabrique" having been called upon to show cause why they should not be compelled to pay \$2,000 damages for having closed the gates of the Catholic cemetery aginst the remains of Guibord. The "Fabrique" has already paid to the Institute Canadienne costs amounting to over \$6,000.

The Warren Sentinel says: "Farmers are busy seeding wheat, and they are taking unusual care with it. The drill is being more extensively used than ever, of which we are glad, knowing it to be a much more sure way of securing a good crop of grain than the old-fashion way of broad-cast hand-sowing."

Dissensions are reported to have broken out among the Carlist leaders which even Don Carlos is unable to reconcile. Dorregaray is ill and has gone to the baths of Lorio in the Bay of Biscay. Saballs has been dismissed from his command, and Gen. Castello has been appointed in his stead.

We acknowledge the receipt of an invitation to the Petersburg Agricultural Fair, which will open on the 19th of October and close on the 22d. The list of premiums is highly attractive, and we may expect a grand display of the products of the Southside and North Carolina.

SHE WAS NOT TO BE LAUGHED AT .- The Bowling Green, Ky., Pantagraph tells this

One of our most prominent citizens moved from the country to the city, a few years since, with his family. In pursuance of a custom at their country home, husband and wife each milked one of their two cows. A lady neighbor happening to go over one afternoon while the milking was going on, asked Mrs. J. to let her try to milk. The cow, not liking such familiarity from a stranger, became restive, and showed evidence of using her hind leg in such a manner that the visitor hastily resigned her position, which was immediately taken by Mrs. J., but the cow, not aware of the change, with one blow upturned the milk bucket, and sent Mrs. J. sprawling on the ground. Mr. J. is passionately fond of a joke, and had been watching the affair with a great deal of interest, while quietly milking his cow a few feet away, and was fairly shaking his fat sides with laughter, while Mrs. J. was shaking out the disordered folds of her dress, and knowing she had a very quick temper, he was not surprised to see her hastily seize a hickory stick. But instead of using it on the cow, she rushed up to him and exclaimed, "Just laugh once more, just smile even, and I will wear you out right here, you heartless

GRAPES AND MUD AS MEDICAL AGENTS.

The New York Times says: At certain towns in Switzerland grapes are grown solely as medicine, and the vineyards are put to no other use. Instead of drinking water, as at other places, the patient is sent out to eat grapes, and must pick them himself from the vines. Where the doctor ordinarily instructs the patient to drink so many glasses of water, he is here instructed to eat just so many bunches of grapes, and no more. It is assumed to be dangerous to go beyond the doctor's prescription a single grape. As strange as it may appear, invalids experience the best of good effects from the "raisin cure," or at least think that they do, and go away very well satisfied. An other popular treatment is found at the mud baths of Schwalbach and other places, where the patients are immersed in soft black mud up to their chins, and remain in the bath the late Col. J. B. City School Board.

The City School Board met last night, and was called to order just before eight o'clock; present: Edgar Snowden, esq., President. and Messrs. Addison, J. S. Beach, S. F. Beach, Hopkins, McKeuzie, Neale and Whittington. Mr. Kemper came in a few moments after the roll had been called.

The Clerk having been sent out, in the ab sence of the messenger, to hunt up a quorum, the Superintendent read the mioutes of the property destroyed. On the upper peninsula, two last regular meetings, which were ap-

Mr. McKenzie, from the Committee on Fi nance and Accounts, reported the Superintendeot's account of the expenditure of the Peabody Fund, and that of the Chairman of the Committee on Schoolhouses and Furniture, of the contingent and hall tunds, correct, and supported by proper vouchers, which report was accepted.

Also, bills of T. J. Mehaffey & Co., coal \$295.25, and Green & Bro., teachers' desks,

\$76, which were ordered to be paid. The Superintendent laid before the Board a bill of \$83 for paving in front of the lot, owned by the Board, on Cameron and Columbus sts., which, on motion of Mr. Hopkins, was referred to the Committee on Finance and Accounts, said paving baving been done by order of the City Council, and not by that of the Board.

A communication from the Principal of Washington School asking permission to use Holmes' History of the United States instead of Blackburg & McDonald's Grammer School History was then read, and, after a lengthy debate on the subject, was referred to a special committee, consisting of Messrs. Neale, Mc-Kenzie and Kemper.

The Superintendent laid before the Board the accounts of the City Treasurer, and stated that he had examined the vouchers and found them correct; also, the bill of the Treasurer for \$487.96, commissions for three years, which, under instructions from the Superintendent of Public Instruction and the Board, he had refused to allow. He said that the validity of the claim was now under the consideration of the Attorney General.

On motion of Mr. McKenzie, the accounts were returned to the Superintendent to be filed and the bill was laid on the table.

The Superintendent stated that there was a pecessity for blinds or shades to the windows in the fourth story of the Peabody building. The glare in the room was unbearable, and as the windows opened instead of lifting, the ordinary blind could not be used.

On motion of Mr. Kemper the matter was referred to the Committee on School Houses and Furniture, with power to do what should appear to be necessary, at as little cost as pos-

On motion of the Superintendent duplicate keys to all the school rooms were ordered to be procured, and the Committee on School Houses and Furniture was authorized to furnish additional blackboards for Washington School.

The Superintendent then laid before the Board the statement showing the overcrowding of the schools, which we published in connection with the proceedings of last Friday night, and said that action on the subject was impera- pared for the occasion. tively necessary.

Mr. Suowden, (Mr. S. F. Beach in the chair) said that he had visited Hallowell School, at the request of the principal, and found the out of the way at home. The law did not permit us to reject children over five, but it was a great imposition on the community to have such young children to take care of, and he was in favor of employing any young girls who could ! keep them out of mischief, and putting them in large rooms to be amused and kept quiet.

The Superintendent said that though he did not think there were any children under five in the white schools, the presence of those under seven was what crowded them, and he cordially concurred with Mr. Snowden in thinking it folly, and worse than folly, to attempt the instruction of such children in the ordinary branches.

On motion of Mr. McKenzie the Superintendent was authorized to employ Carrie M. Nolen, an authoriz: 1 substitute, to take charge By special invitation Messrs. Funk, of Bridgeof the small colored children of both sexes, at a salary of \$20 a month.

Mr. J. S. Beach moved that the Board elect another teacher for white children; it was evideut that these schools were becoming overcrowded with proper subjects of instruction, and an experienced teacher was necessary.

Mr. McKenzie said that he understood the Superintendent, last Friday night, to propose the School, and we in behalf of the pupils tenone of the stores in the Peabody building.

The Superintendent replied that he did so at that time, but that more than a hundred permits were still out, over forty having been granted last Monday, and that it was evident that the rush would continue beyond the power good people of this community. "AVON." of the Board to provide for it. When people paid their taxes they demanded the admission of their children, and it would not do to refuse if we could, in any way, accommodation. He, therefore, now thought Mr. Soowden's plan preferable to his.

Mr. Hopkins moved, as a substitute for Mr. Beach's motion, that the Superintendent employ a substitute teacher to take charge of the smallest white children, male and female. Mr. McKenzie called for the ayes and noes

on the substitute, and it was adopted by the following vote, viz: Ayes: Messrs. Addison, S. F. Beach, Hopkins, Kemper, Neale and Snowden-6.

Noes: Messrs. J. S. Beach, McKenzie and Whittington-3. The motion, as amended by the substitute,

was then carried, and a salary not exceeding \$20 a month was ordered to be paid the person appointed.

Mr. Kemper, from the Committee on Schoolhouses and Furniture, (by unanimous consent), presented the bill of S. Cuvillier, for work at Washington schoolhouse, \$12, which was referred to the Committee on Finance and Accounts; also, a bill of T. L Monroe, for a balance of \$73 on painting the Lee building, with an order of G. W. Bryant, Secretary of Trustees of that building, for its payment out of the rent due December 1st, which was ordered to be paid.

Mr. McKenzie, from the Committee on Finance and Accounts, reported Mr. Cuvillier's bill as correct, and it was ordered to be paid. A communication from the teachers of Lee School, thanking the Board for their new desks and asking for chairs, was received, and

On motion of Mr. J. S. Beach, the Committee on Schoolhouses and Furniture was instructed to furnish chairs for all the teachers in the Peabody building, the cost not to exceed twenty dollars:

The Clerk laid before the Board an application for a permit for Ephraim Cheshire, a boy under suspension. On motion of Mr. Hopkins, it was ordered

the punishment, a refusal to receive which caused the suspension. The Chair appointed Mr. Addison a member of the Committee on Finance and Accounts, in place of Mr. Wheat, and of the

He claimed to be a brother of Major Latham, of Plymouth. Mr. "Latham" departed in peace with the forty five dollars, and Rev. Carroll has not heard of "hair nor hide" of him since. He has written to Plymouth to the postmaster, and he says no such affair ever occurred in Plymouth or vicinity, so far as he knows,

[From the Southern Churchman.] Many readers of the Southern Churchman are readers of the Alexandria Gazette. It will be a grief to them to know of the death of its accomplished editor, Mr. Edgar Snowden, which took place at his residence on Friday

The Gazette was established in 1800 by Mr Snowden's father; but for the last forty-five years M.. Edgar Snowden has been its editor. During the past year, however, bad bealth has prevented him from attending to his duties; so that its management has been under the supervision of his eldest son, Mr. Edgar Snowden, ja.

The Gazette had from its inception many friends. The high tone of the paper was a model for all. Its editor never aimed to lead public opinion. He was content to make a paper that would give all the important news in a condensed form. Occasionally ne would write a leading articler never long, which expressed his views on the topics of the day, in a calm and wise manner. No one was ever the worse on account of reading the Gazette; it brought no blush to any cheek; it quarrelled not with its contemporaries; it pursued the even tenor of its way, aiming to give, what the people desired, the important news of the world, with special reference to what was going on in Virginia and the city of Alexandria.

Its editor was a high-toned and honorable gentleman; and those who were privaleged to kuow him well, knew him but to admire, not this place. The weather was cold and threat- calm wisdom of his conversation. He was a ening rain, but, however, many ladies and gen- careful and diligent reader, well informed on tlemen were present. Mr. Snowden, though a church-goer, was not a communicant of the Church. We regret when we see such a man standing outside of the Chuich. But for months past he has been a true penitent; and while it is not for us to lift the veil of private life, his pastor, Rev. Dr. McKim, who has been much with him, expresses his earnest hope that he died a penitent believer in our Lord Jesus.

ing 28,041 tons of coal. THE COAL PRODUCT. - The miners of the coal regions in Pennsylvania are now said to be fairly at work, after six months of strikes. The Philadelphia Inquirer tainks that the coal product for this year will be half a million of tons less than it was last year, and last year the product was beyond a militon of tons less than in 1873. Therefore it appears that, according to every probability, the coal product and con-sumption for this year will be, in round numbers, a million and a half of tons less than it was two years ago.

NEW Source of Sugar Supply. -It is stated that the protracted troubles in Cuba are stimulating the production of sugars in the tierras calientes of Mexico. It is but a few weeks since the first consignment of sugar ever made from Mexico to the United States was received in this country. It is said that those who best know the capabilities of Mexico for this crop are convinced that at no distant period she will be found competing on no unequal terms with the West Indies for the markets of the Union.
